

Sneak Peek!

Improved Profile & Shout Outs

Coming Monday October 22

Improved Profile

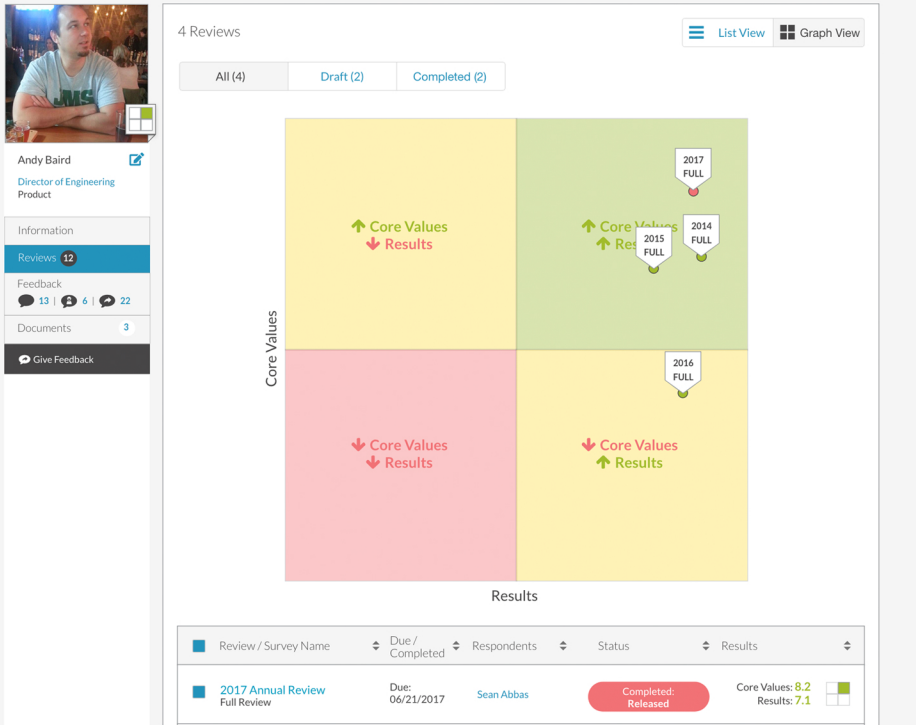

Shout Out Enhancement

Mobile Optimization

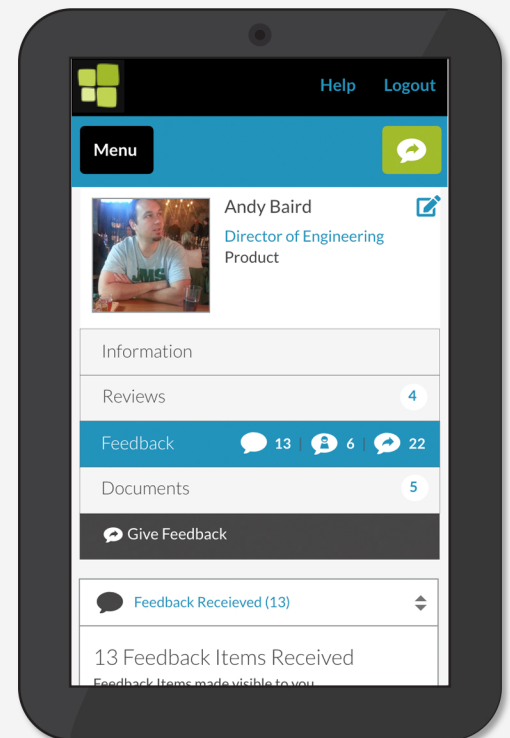

A **better organized** profile view, even on your phone.

Your **profile** in Threads has been updated!

All of your **previous profile content** is still available, just organized differently.

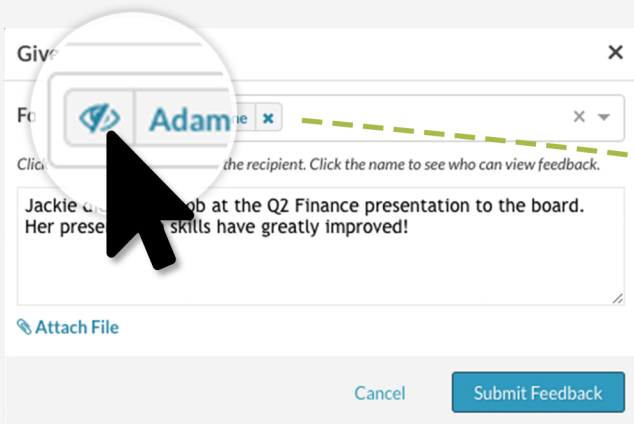

When viewing on a desktop, your profile sections will appear on the left hand side.

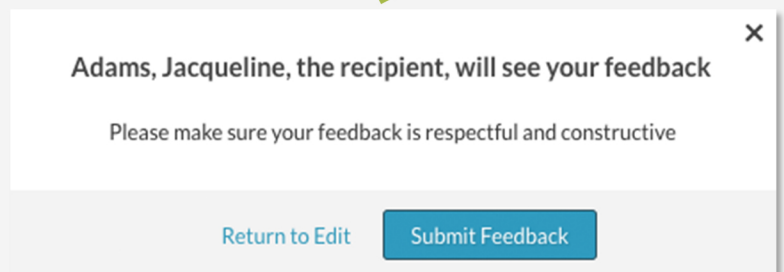

When viewing on a mobile device, your profile sections will appear towards the top.

Giving you the opportunity to **directly recognize** your peers.

The **shout out enhancement** gives you an **OPTION** of making positive feedback visible to the recipient.

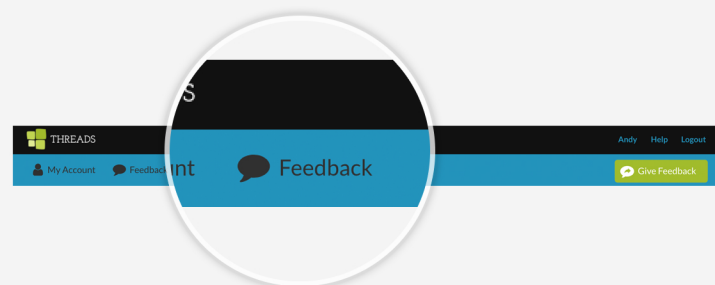

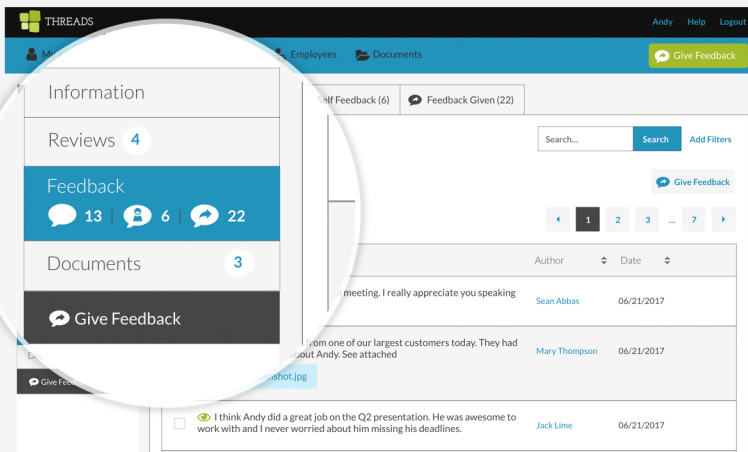

While giving feedback to a peer, simply click the eyeball next to their name

This also means that you can **NOW SEE** any feedback in **which the author decided to make visible** to you!

You can access your feedback received on your new profile.

Or under the feedback tab in the main navigation
